COSTS**

iUP IS IBP'S INNOVATION HUB

Our purpose is to foster collaboration and synergy between academia, companies, public authorities, and startups, driving innovation to meet the challenges of the O&G and energy sector, including decarbonization and energy transition, by exchanging knowledge, enabling partnerships, and creating business opportunities.

By becoming an IBP Member, you can be part of iUP.

And if you're a startup, join IBP and enjoy access to:

- Matchmaking with companies in the sector
- Brand exposure
- iUP Talks
- Pre-qualification for participation in the iUP Innovation Connections discussion group

COMMITTEES

✉ comissoes@ibp.org.br

BE PART OF OUR COMMITTEES

Knowledge is generated collaboratively with our Members and structured through participation in committees.

The committees are divided into 3 axes:

REGULATORY COMMITTEES

They promote the development and improvement of the E&P, Mid and Downstream segment, through guidance on matters of common interest.

STANDARDIZATION COMMITTEES

They exchange knowledge collaboratively to formulate and apply rules to solve or prevent problems.

TECHNICAL COMMITTEES

They share best practices, support events, and disseminate suggestions for action to promote better performance by companies in the industry.

By becoming an IBP Member, you can participate intensively in the sector's debates, in more than 20 discussion forums, contributing to the development of the industry.

SEPTEMBER 23-26
Olympic Boulevard | Rio de Janeiro

ONE OF THE WORLD'S LEADING ENERGY EVENTS IS CHANGING.

Rio Oil & Gas is now ROG.e

Our event has evolved along with the changes taking place in the global energy sector, reflected in our content, with new theme areas and discussions about the various technologies and innovations in this transitioning world.
